**Get organised**

**Seize control**

**Gain understanding**

## Seize control of your business

**CERTUS Group** the Accounting Professionals can help you:

- ✓ Understand and grow your business
- ✓ Improve your profitability
- ✓ Safely minimise tax
- ✓ Organise your accounting systems
- ✓ Develop and refine your business plan

CERTUS Group the Accounting Professionals are a firm of dedicated accounting professionals located in Buderim and Burpengary Queensland.

We don't just do the basics, we are **Active** business advisors.

## Understand and grow your business

**N**ot all business owners want to grow the size of their business, but everybody wants their business to be more profitable. CERTUS group can help you develop systems to identify your most profitable products, services and customers.

But if it's growth you want, we can help you manage the process by identifying potential markets, projecting cash flow and guiding you safely through the red tape.

### Tax - keep ahead of the game

Tax laws are a complex matter and quality professional tax advice is a must for anyone in business.

Our aim is to help our clients navigate the tax minefield. We can assist you with tax effective structuring, minimisation strategies and compliance. It is our policy to protect our client's interests (and ours) by ensuring that our advice remains strictly within the tax laws. Naturally, we also assist our clients with tax return and activity statement preparation.

## Accounts and compliance

**L**ike all accounting firms we provide year-end financial statements, BAS statements and tax returns for our clients. But what makes us different is our philosophy of helping clients to continuously improve their record keeping and bookkeeping systems.

Time spent bookkeeping is time you could spend doing your real business...

We see our role as accountants primarily as educators, coaches and a source of inspiration, not just number-crunchers. That's why we put so much emphasis on helping clients streamline their record keeping processes.

## Self-Managed Superannuation

We specialise in helping our clients grow their personal wealth through self-managed superannuation.

Create more time for **you...and your business.**
